I. BACKGROUND

Being committed to serve the communities through its identified key areas of intervention (Capacity Building and Development; Environmental Care and Disaster Risks Reduction; Hygiene Water and Sanitation; Crops value Chain and Saving & Credit for Rural Entrepreneurship) RDIS works hard to address issues faced by the members in the communities. As a local non-governmental organization, it is tiresome to release funds from either partners or investors to implement project identified with and for the members in the communities.

For RDIS to stand, new ways of attracting partners to engaging in the projects and programs we as highlighted in the strategic document of RDIS organization, 2020-2025. Nonetheless, throughout the year 2023, we won two more partners whose projects will significantly impact the lives of the members in the communities at the same time contribute to the sustainability of RDIS and its work.

This year 2023, has brought lot of changes within the organization financially, managerial and last but not least equipment and materials for better project implementation, project monitoring and evaluation. It is the first time since the registration of RDIS (August 2015) we come to a point of managing a budget beyond 1/5 billion Rwandan Francs despite the end of Partnership with TEARFUND on 01/04/2021. That partnership was the second bigger one when it ends, whilst it used to be the first with an average amount of about 80% of the whole budget of RDIS and, still during those days of the domination of TEARFUND, RDIS's annual budget has never reached 70,000,000 Rwf. RDIS is strongly committed to its Mission Statement "To safeguard environment increase the production aiming at sustainable and holistic development" given, all the ongoing projects and programs align with its Mission

Registered office

Rural development inter-diocesan service (RDIS) is located in MUHANGA District, SHYOGWE Sector in SOUTHERN province. Its activities are conducted countrywide.

1.1. Mission and Vision

Mission

To safeguard environment, increase the production aiming at sustainable and holistic development

Vision

A Holy Soul in a Healthy Body

1.2. Project Implemented

Maintenance of improved stoves (6420 stoves) distributed under “carbon emission for self-sustainable environmental care

- Field visits to stove users, and
- Hiring the Validation, Verification Body based on their competencies and quotations; TUV NORD won the call
- Hiring Bridge Builders for the project design document and design change
- The validation of the design change, Project Design Document and verification process is ongoing.

Distribution and installation of 14012 improved cook stoves and the submission of the same amount of Carbon Transfer Form under the project “Improved Cook Stoves-Rusizi-Rwanda.

GS designed the first issued credits authorized under Article 6 for use in the voluntary market; a pioneering milestone in the implementation of the Paris Agreement. The Government of Rwanda has committed to apply a “corresponding adjustment” meaning that these emission reductions will not count towards its Nationally Determined Contributions (NDC) obligations under the Paris Agreement.

Climate Smart Agriculture

- Greenhouse materials and drip irrigation materials were purchased, delivered and installed.
- The Solar-powered irrigation system and other equipment's were, delivered, installed and are operating successfully.
- 200 Farmers trained well equipped with skills and knowledge on adaptation to climate change and environmental protection
- Horticultural crops are grown on irrigated open field in Mbayaya Farm,

Environmental Conservation in western province of Rwanda and in Nyaruguru Diocese, the activities below were carried out

- Identifying and training individuals responsible for managing the tree nursery beds.
- Preparing the seed beds to facilitate the germination and growth of seeds.
- Purchasing quality seeds and necessary materials, such as plastic bags, for the seedlings.
- Planting seeds in the prepared beds to initiate the growth process.
- Avocados were grafted by using scions of Hass and Fuerte Varieties.
- Distributing the produced seedlings to local communities and actively participating in the planting process.
- Implementing a robust system for monitoring and evaluating the project's progress, followed by comprehensive reporting.

150,000 seedlings of fruits, agro-forestry and forest seedlings produced and distributed to the community for fighting against erosion, improving food diet at household level and selling surplus to market

- Two homeless families have got their homes: One in Muhanga and One in Rusizi districts
- Identification of beneficiaries capable to contribute 20% of the total construction cost;
- Construction and Supervision of builders to ensure the work is done technically and minimum standards at RDIS level are fully complied with;
- Official handover of the houses to the families (Owners).

1500 poor individuals adhered medical insurance scheme

- Identifying the families who are not able to cover their health scheme fees for the year July 2023-June 2024.
- Developing the database for project beneficiaries which helps to know the social economic status of the beneficiaries
- Paying the health scheme fees for 1500 households.
- Quarterly field visit to households or groups discussions with those whose health scheme fees are paid for to access whether or not there spiritual, social economic change taking place related to the project

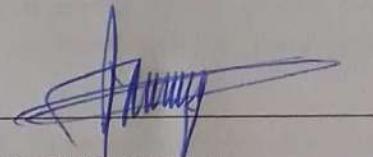

II. STATEMENT OF MANAGEMENT RESPONSIBILITIES

Management is responsible for maintaining books of account and records of the organization, preparing reports on budget execution, managing revenues and expenditures, preparing, maintaining and coordinating the use of financial plans, managing the financial resources for the organization effectively, efficiently and transparently, ensuring sound internal control systems in the organization.

As the Executive Secretary, I accept responsibility for the annual financial statements, which have been prepared in accordance with the "modified cash basis" using appropriate accounting policies supported by reasonable and prudent judgments and estimates as well as compliance with local laws and regulations.

These financial statements have been extracted from the accounting records of RDIS and the information provided is accurate and complete in all material respects.

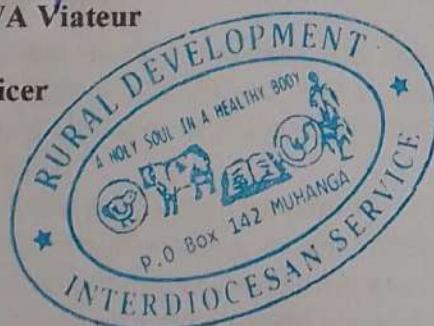

In my opinion, the financial statements give a true and fair view of the state of the financial affairs of RDIS Organization. I further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statements, ensuring adequate systems of internal financial control and safeguarding the assets of RDIS Organization.

Signature: 

Date: 25/07/2024

Chief Executive Officer

III. REPORT OF THE INDEPENDENT AUDITORS
TO THE MANAGEMENT OF RURAL DEVELOPMENT INTER-DIOCESAN SERVICE
REPORT ON THE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying financial statements of RURAL DEVELOPMENT INTER-DIOCESAN SERVICE with explanatory notes as set out on pages **8-20**. The financial statement comprises the Statement of revenue and Expenditure, Statement of Financial Position for the period ended 31 December 2023, and a summary of significant accounting policies and other explanatory notes.

In our opinion the accompanying financial statements give a true and fair view of the statement of financial position of the company as at 31 December 2023 and its statement of Income and Expenditure for the year then ended 31 December 2023 in accordance with the General Accounting principles.

1.1. Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Rwanda, we have fulfilled our ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

1.2. Directors' Responsibility for the financial statements

The directors are responsible for the preparation and fair presentation of the financial statements that give a true and fair view in accordance GAAP, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a **going concern**, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the organization or to cease operations, or have no realistic alternative but to do so.

1.3. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

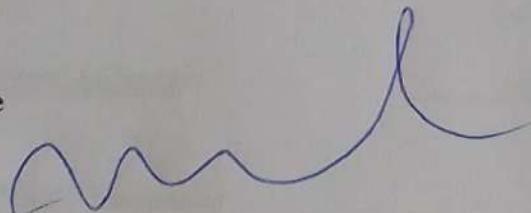

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a presentation.

V. NOTES TO THE FINANCIAL STATEMENTS

5.1. Accounting policies

a) Basis of preparation

The Financial Statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. However, where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the Financial Statements.

The Financial Statements have been prepared on a modified cash basis of accounting. The modified cash basis of accounting means financial transactions which are recognized in the books of account as follows:

- 1 Generally, transactions are recognized only at the time the associated cash flows take place;
- 2 The expenditure on acquisition of fixed assets is not capitalized. Thus, fixed assets are written-off on acquisition and the wear and tear (depreciation) of those assets is not recorded in the books of account; and
- 3 Prepaid expenditure/advances is written-off during the period of disbursement.

The recognized "modification" is as follows:

- 1 Invoices for goods and services which are outstanding on the date of the closure of the fiscal year are recognized as liabilities for that specific fiscal year;
- 2 Amount receivable which are outstanding at the date of the closure of the fiscal year are recognized as assets for that specific fiscal year;
- 3 Book balances denominated in foreign currencies are converted into the Rwanda Francs at rates of exchange ruling on that date issued by the National bank of Rwanda. The associated exchange losses are recorded as recurrent expenditure while the exchange gains are recorded as recurrent revenue.

b) Reporting entity

The Financial Statements are for RURAL DEVELOPMENT INTER-DIOCESAN SERVICE

Presentation Currency

The financial statements are reported in Rwanda Francs.

c) Revenue

Contributions from Donors

These are budgetary allocations from Donor and are disbursed directly or indirectly to the bank account of the reporting entity periodically. The receipts are recognized when the cash is received.

Direct payments by Donors

These are payments directly made to suppliers by the Donors on behalf of the Entity. Direct payments are recorded when the transfer is made to the supplier.

Other income

Other income includes internally generated income.

d) Cash

Cash comprises cash on hand and bank balances.

e) Receivables

Accounts receivable relate to prepaid expenses, outstanding grant and advances as

f) Accounts payable

These mainly relate to invoices for goods and services which were outstanding on the date of the closure of the accounting year. These are recognized as liabilities for that specific fiscal year.

g) Property and equipment

Property and equipment are tangible assets which the Company holds for its own use

An item of Property and equipment is recognized as an asset when it is probable that future economic benefits associated with the item will flow to the Company, and the cost of the item can be measured reliably.

Property and equipment is initially measured at cost. Cost includes all of the expenditure which is directly attributable to the acquisition or construction of the asset, including the capitalization of borrowing costs on qualifying assets and adjustments in respect of hedge accounting, where appropriate.

Depreciation of an asset commences when the asset is available for use as intended by management. Depreciation is charged to write off the asset's carrying amount over its estimated useful life to its estimated residual value, using a method that best reflects the pattern in which the asset's economic benefits are consumed by the Company.

Depreciation is not charged to an asset if its estimated residual value exceeds or is equal to its carrying amount. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or derecognized.

Items of property and equipment are depreciated as follows:

Item	Depreciation method	Useful life
IT Equipment	Straight line	3 years
Office equipment	Straight line	Varies according to management assessment
Office furniture and fittings	Straight line	5 years
Motor vehicles	Straight line	Varies according to management assessment of each individual asset

The depreciation charge for each year is recognized in profit or loss unless it is included in the carrying amount of another asset.

h) Foreign currencies

Transactions denominated in foreign currencies are translated to the Rwandan Franc at the rate of exchange issued by the National bank of Rwanda (BNR) applicable for the dates of the transaction. At the balance sheet date, book balances denominated in foreign currencies are converted into Rwandan Francs at the exchange ruling on that date as issued by BNR. The associated exchange losses/gains are recorded as expenditure/ income in the books.

5.2. Grant income

	2023 Frw	2022 Frw
Revenue from seedlings	2,025,900	3,230,250

<p>Environment and Conservation in Western Province of Rwanda and in Nyaruguru Diocese</p>	<p>✓ Elaboration and submission of Project Concept Note to Rwanda Action, Action, wester Project Memorandum of Understanding (MoU), Tree Nursery Site Preparation, Stakeholder s Consultatio n Meeting, Selecting and Training of Tree Nursery New Bed Managers, Seed Be d Preparation, Purchasing of Seeds and Plastic Bags,</p>	<p>❖ The project proposal was presented to Rwanda Action, and, approved. ❖ MoU was signed by RDIS and RA. ❖ 5 tree nursery beds to ensure optimal conditions for seedling growth. ❖ Engaging relevant stakeholders to gather input, and ensure a collaborative approach. ❖ Seeds purchased, distributed to bedmanagers and sowed ❖ Flowerbeds and transplanted seedlings watered and protected from weeds ❖ Diseases and pests are controlled to ensure that seedlings are free of them and grow well. ❖ Seedlings grafted and cared for 170.000 Seedlings distributed to farmers in Nyaruguru, Rusizi and Nyamasheke Districts ❖ Distribution list established at each tree nursery site</p>	<p>The production of fruit trees, agro-forestry and forest trees was achieved at rate of 100%. Unfortunately, in 4 tree nursery beds, the survival rate of seedlings after grafting was very low. We decided to replace some bed managers given, it is the third times we experience a poorer growing rate of grafted seedlings.</p>
